THANK YOU

RYAN

I would like to thank our fans for staying with us these 9-10 years, it's been an insane journey & you guys are LITERALLY the reason we do what we do and what motivates us to push as hard as we do every album....so, thank you. I would like to thank my family, mom & dad specifically, for enduring my endlessly changing calendar and & putting up with all that entails, I'm sorry for the events I have missed, but excited about the ones I will make, and won't forget the ones I attended ;) I'd like to thank my wife for having the patience of Job & being the home button on a gps map for me all these years....you are home regardless where we are. Thank you to Cope & Miles for being the coolest/best 2 boys a dad could hope to ever have in this life. Thanks to Ron Laffitte for being the best manager in the music business; obvously we are biased, but yet it still remains a constant truth. Thank you D'ana Salant for putting up with our constant shenanigans and being the daily dose of certainty and order in our otherwise chaotic world. Thank you to Monsieur Luftman for being a badass A&R with opinions and the ability to articulate them (even when we disagree)...and for getting that Aston. Thanks to Interscope and UMG for being hands down the greatest record label we could hope for in this world!!!! Globally you guys are a presence like none other. Thanks to all the other people that have helped us get to where we are from the very early days Julie Pilat, before one of our songs were on air you championed me and 1R to no end... I will never forget it. As we progressed, Sharon Dastur you have become a genuine friend and confidant, and I will never get tired of NYC dinners and drinks talking about music and travel, see you soon. ALL of our Universal Music reps around the world...there are far too many to list, you know who you are, THANK YOU, we look forward to seeing u every single trip around this blue and green rock. Brenda and Chris- thanks for your radio prowess and tireless work.
To the collaborators on this album: Peter Gabriel- u are a big part of why I got into music in the first place, thank you for saying yes!!, Pharrell- thank you for all the encouragement, I'm sorry we ran out of time to record at the end but I'm excited to go in with you regardless!, Phillippe & Hubert (Cassius), i'm most proud to call u guys FRIENDS, forever, thanks!, Santigold, I've been such a massive fan for so long, this was so last minute and so cool, thank u for being down!, Romy (the XX), THANK YOU for agreeing to be a part of this project, we hope it makes you as proud as we are. Thank you to Noel Zancanella for being a tireless patriot within this band and working so hard, and traveling so far and long to work with me and us, never complaining, and always an endless source of creativity and ideas, you are a man among men, we are grateful.

Thanks to Rich R for your engineering prowess and tireless work ethic and Dave M, Matt T, & Mark T for being there for countless days and hours while we made this album, helping us get anything from coffee to a super rare 250 plate reverb. Thanks to Benny Blanco for being one of the only outside writers or producers we've ever worked with consistently that we always return to...cuz ur so damn good man.
You are a unicorn. Thanks to Colorado for being gound zero for so many recordings, and to Gov. Hickenlooper for being such a massive supporter. Thanks to the fellas in U2 for being one of the biggest inspirations personally over the last 2 years... alot to live up to, and I've learned alot from you, you are a force of nature. I have too many thanks, I'm bound to leave someone out so I should stop now before I get paranoid or insecure about it.....Thanks to people who create something from nothing, it's what makes life interesting & THANK YOU PEOPLE OF THE WORLD. God bless - R

BRENT

Thank you to my wife Jackie, whose strength, wisdom and love deeply inspire me in innumerable ways. To my family and friends who are constant supporters and never seem to skip a beat in this life that takes us away so often. To inspiring people and places that continue to feed our insatiable desire to experience as much of this world as we're capable of absorbing. To our management, label and everyone supporting the team we've been blessed to have. And always to our fans who drive us to new points of creativity and musical exploration.
Love and thanks to all of you.
SDG

EDDIE

A special thanks to all of the fans, you make it possible for me to live my dream everyday and I love you all! To my Band and Crew, I feel blessed to call you my brothers and lifelong friends. To my friends who I consider family, The Furman's, The Maldonado's, The Chavez's, The Jackson's, The Martinet's, The Gombeski's, The Ostermiller's and Jaysi- thanks for always cheering me on and holding down the fort while I'm away.
To our Parents for your loving support always-Lyle, Bonnie, Chris,Suzanne, Donna and Barry (Dad, I miss you everyday). To my son Hudson, you inspire me to be a better man and Father daily. Thank you for changing my World. And to Rhiannon, you're my best friend and soulmate. Thank you for your unconditional love and support. I couldn't do this without you.
Xx

ZACH

I must give a complete and sincere thank you to all friends and family who show their love to me each in their own way. My life is what it is because of your influence, presence, grace, patience, vulnerability, knowledge, wisdom, and inspiration. Your pursuit of me is undeserved, but that's exactly what true friends and family do despite our broken state. You are exhibit A for this kind of love. To every relationship I have made in this business from management both financial and professional, agent, record label, client, gear company, etc. you must know that I am indebted to you all for changing my life and supporting this daily machine with such dedication. We aren't much without the team! Speaking of those who have made us, our fans! Thank you doesn't cut it! We can't repay you but we will try by doing what we know for you, music. To my two angelic children, every time I come home from the road I am beyond ecstatic to be with you and when I leave I am brokenhearted. You make me laugh, you make me feel the world, you make me desperate to take one step closer to my true self. To my wife, I am yours until the end and even beyond that. Remember when I used to tell you the band was going to make it? Well, it hasn't happened yet but I think it might soon;) Pieces of me drop to the floor when I leave our home and they remain on the floor until I am back with you. I work, travel, tour without them until I am in your presence again. Then I can rest under the comfort of our family and love once more. Watching you as a mother is like watching any other force of nature or cosmic system work its instinctual complex magic without question or doubt. Finally, to God, the One that made it all, sustains it all, and yet chooses to stoop so low as to interact with me and love me. May thankfulness persuade me to be simple and may simplicity persuade me to be thankful.

DREW

Thank you to the always amazing and ceaselessly supportive group of people who have allowed us to exist and keep making records. It's our collective opinion that the album format is a medium worth fighting to preserve. We are only able to make the music we want to because of the love and loyal support of our families and our crew and our team and our friends and our fans. Thank you all for giving us all of this. Extra special thanks to Brent Eddie Ryan and Zach for being my favorite band. Additional extra thanks to my Incredible wife Eden for being incredible. Also thank you David Bowie.
